It will be noticed therefrom that import of certain items will be allowed only on production of non-availability certificates, from indigenous producers. The names of the producers from whom the required non-availability certificates are to be obtained have been indicated against each item. For the purpose of obtaining these non-availability certificates from the producers concerned, the applicants for import licence shall send enquiries, by registered post, to the concerned producers giving full specifications of the materials required, e.g. the sizes, the chemical composition, the physical properties and the end-use of the material. On receipt of the enquiry, the producers shall send a definite reply, within three weeks. Where they are

able to effect the supply, they will indicate, in their replies, the quantity they would be able to supply, the prices, delivery time and all other points relevant to the enquiry. Copies of such correspondence shall be furnished both by the applicant and by the producers concerned to the licensing authority as well as to the Sponsoring Authority concerned. The applicants shall, therefore, indicate in their enquiry, the names and full addresses of the Licensing Authority and the Sponsoring Authority concerned with their applications to enable the producers to furnish the copies of their reply to these authorities. If any enquiry received by the producers is found incomplete in any respect, they shall promptly bring it to the notice of the sender thereof, with a copy to the authorities referred to above. Failure on the part of a producer to

send a definite reply to a complete enquiry within a period of three weeks will be deemed to indicate that he will not be in a position to supply the materials and this will be taken into account by the Licensing Authority for the purpose of issuance of licence for importing the materials. The producers must indicate the quantity they would be in a position to supply within six months from the date of financial arrangement made by the customer and this tonnage only will be deemed to be available from indigenous source for the purpose of allowing the imports. Where a commitment for supply by a producer is made by him subject to availability of raw materials or other unforeseen factors, it will not be deemed to be a firm commitment for the purpose of disallowing import to the extent of that quantity. Copies of this correspondence should invariably be endorsed to the Iron and Steel Controller, Calcutta as well.

14. The import policy announced in this Public Notice will be applicable also to all licences issued by the Chief Controller of Imports and Exports for import of ferro-alloys and steel items including those against the licences for import of components and spares under the interconvertibility facility granted under para 85 of the Import Trade Control Hand Book of Rules and Procedure, 1968.
